

Mid Review — Full Instructions & Submission Guide

Full evaluation criteria and artifact submission instructions and includes detailed guidance for the demo video submission. Lead of group must submit all artifacts. Avoid duplicate submissions. We created two assignments (Google classroom classwork) for the mid review. They are as follows:

- **Mid Review - Project Demo Link**
- **Mid Review – Artifacts**

Ensure that the majority of core functionalities defined by the FFSD framework are fully working and Clearly mention what additional functionalities planned and provide the implementation status (completed, partially done, or pending) in video and mention in the read me.

For Evaluation Points [Please find the Attached Image which was shared earlier]

- 1) Front-End and Back-End (FFSD) — 6 Marks
- 2) Form Validation using DOM — 3 Marks
- 3) Dynamic HTML Implementation — 3 Marks
- 4) Data Handling with AJAX / Fetch / Axios / async — 5 Marks
- 5) Team Cohesion — 3 Marks
- 6) Individual Contribution & QA — 20 Marks

Mid Review - Project Demo:

Video Requirements (strict)

- **Max length: 7–8 minutes. MP4 recommended. Min 720p.**
- **In the video, first, explain your project business case before moving on to the demo.**
- Host: YouTube (Unlisted) preferred or Drive/Dropbox with "Anyone with link can view".
- **What to show:**
 - Editor pointing to functions implementing validation, dynamic DOM, and async calls.
 - DevTools network tab for each async request.
 - Git log or commit list for team evidence. etc

Suggested structure:

- 00:00–00:50 — Title slide (Group ID, Project Title, Team lead) and your project business case
- 00:50–02:00 — Form Validation demo + show code

- 02:00–03:30 — Dynamic HTML demo + show code
- 03:30–06:00 — Async Data Handling demos (three flows) + network tab shown
- 06:00–06:30 — Per-member contribution (10–20s each)
- 06:30–07:30 — Wrap-up and where artifacts/evidence are located

Mid Review - Artifacts

Files to include in the zip (Lead)

Name your zip: group<id>_<short-title>_midreview.zip

- /source — full source code (frontend + backend if any)
- README_FULL.md (this file)
- demo_link.txt (video url + timestamps)
- test_plan.md — validation & async test cases with results
- **network_evidence**/screenshots for async calls
- git-logs.txt — filtered commits per student or screenshots
- schema.sql or DB dump (backend)
- PPT.pdf / Documentation.pdf
- task_assignment.md / CSV
- ---

Quick README Template (for reference)

- Group ID: <group-id>
- Project title: <title>
- SPOC: <name, email, roll no>
- Team members & roles
- How to run (local): prerequisites and steps
- Key files and functions (validation, dynamic, api)
- Demo link & exact timestamps
- Evidence locations (network_evidence/, git-logs.txt, etc.)

Submission Checklist

Include a completed SUBMISSION_CHECKLIST.md file inside the zip with all items ticked and the demo link verified (unlisted/public).
